CHALLENGES

Mazars was appointed to provide to Castel in Poland – Castel Freres Sp. z o.o. – accounting, tax compliance, payroll and HR services in July 1995. At the beginning, it was necessary to work at Castel Freres Sp. z o.o. premises on their software to gain insight in all processes and propose a new organization.

When the works were successfully outsourced, the Client's business started to grow and since then we have been facing constant need for optimization.

SOLUTIONS

From the beginning, Castel Freres Sp. z o.o. has been assisted by the same Manager. Thanks to that, Mazars dedicated team has always been actively involved in the works and Castel can benefit from their proactivity and strong technical expertise. Many state-of-the-art optimization solutions have been implemented to serve the growing Castel Polish business even more efficiently: change of accounting software, scanning of documents, streamlined work-flows and procedures.

BENEFITS

Both Castel Freres Sp. z o.o. and Mazars share a relationship of trust and mutual understanding of challenges. The Client can fully focus on their core business and be sure of compliance and conformity with the ever-changing regulations.
